CN4EF Day @ KubeCon / k8s on the Edge Days

Frederic Desbrien mentioned that the Eclipse Edge Native WG has been invited to contribute some content to this “k8s on the Edge Days” [event](#), however looking at the program, it looks very Kubernetes centric.

Kilton Hopkins agrees that K8s on the Edge Days is not the best conference to put our focus, and it is not our primary ecosystem.

Regarding the “[CN4EF](#) at KubeCon” we are building the program. We can have one session or more if it is needed. Frederic Desbriens proposes to do the same EdgeOps (white paper) panel at the KubeCon event, to be held on Monday, Oct 11, 2021 time 9am-5pm (Pacific Time, USA). The schedule has not been set yet. Tentatively 9am Pacific Time. And that is 6pm European Time. List of panelists to be confirmed, Robert Andres, Luca Cominardi, and Kilton Hopkins.

2022 Program Plan and budget process

Frederic Desbriens mentioned that the deadline for the Program Plan and the Budget for 2022 is on Nov 15, 2021. There should also be a Marketing Plan for 2022, to be prepared by Hassan Jaber. These 2022 plans should be approved unanimously by the SC.

Following that, Frederic Desbriens triggered the discussion on the 2022 Program Plan updates by reviewing the particular Industry Vision & Specific Objectives for 2022.

Membership Pipeline

Frederic Desbriens mentioned that there have been no changes since the last SC meeting.

Next Meeting
